

Professional Supervision

CatholicCare offers Professional Supervision services for case workers, case managers, counsellors and social workers.

CatholicCare utilises a structure supervision framework, meeting the AASW* criteria.

Practitioners can facilitate group and peer supervision sessions as well as provide one-on-one clinical supervision sessions.

All forms of supervision can also be provided in teleconferencing formats using Microsoft Teams or Zoom platforms. Telephone sessions can also be arranged.

The professional supervision packages will be tailored to the individual practitioner's needs and as stated, can incorporate peer and group supervision sessions to replace or supplement one-on-one sessions.

CatholicCare can design Supervision Frameworks suitable for programs to meet the needs of a range of professions, often present in a multi-disciplinary team.
